

## Table of Specifications of the Meitzav Examination: Fifth Grade 2018

The table of specifications is based on the Revised English Curriculum 2014

| Domain   | Possible Benchmarks   | No. of Tasks | Possible Text Types   | Length of Texts   | Possible Item Types  | Possible Categories of Comprehension Questions*   |
|--|---|--------------|---|---|--|---|
| Access to Information from Spoken Texts<br><br>25% | <ul style="list-style-type: none"> <li>understand the general meaning, main idea and sequence of events in a text and use this knowledge as needed</li> <li>identify facts, feelings and explicit opinions in a text</li> <li>follow a short sequence of simple instructions/directions in familiar contexts</li> <li>locate relevant information for a specific purpose</li> </ul> | 2            | <ul style="list-style-type: none"> <li>advertisement</li> <li>announcement</li> <li>conversation</li> <li>excerpt from a lesson</li> <li>instructions</li> <li>message</li> <li>news / weather report</li> <li>oral presentation</li> <li>riddles</li> <li>story</li> </ul> | <b>Level One</b><br>approximately<br>80 seconds<br><br><b>Level Two</b><br>Approximately<br>120 seconds | <ul style="list-style-type: none"> <li>carrying out instructions</li> <li>chart / table</li> <li>matching</li> <li>multiple-choice</li> <li>open-ended (e.g. wh-questions)</li> <li>sentence completion</li> <li>sequencing</li> <li>true / false</li> </ul> | <ul style="list-style-type: none"> <li>literal</li> <li>integration</li> <li>inference</li> </ul> |

Tasks 1 and 2 are listening comprehension tasks, recorded onto a CD which is provided with the exam. Each text has been recorded twice, giving the pupils an opportunity to recheck their answers and better comprehend the text.

## Categories of Comprehension

### Lower-Order Thinking Skills (LOTS)

**Literal Comprehension:** Literal comprehension refers to understanding the explicit meaning of a text. In order to answer literal comprehension questions, students need to locate information given explicitly in the text.

### Higher-Order Thinking Skills (HOTS)

**Integration:** Integration refers to understanding the explicit meaning of a text but also requires accessing information from different parts of the text in order to answer questions. In order to answer questions that involve integration, students need to locate information given explicitly in different parts of the text.

**Inference:** Inference refers to an understanding of the implicit meaning of a text. In order to answer inference questions, students need to read between the lines.

**Personal Response:** Personal response refers to questions that require students' personal involvement with the text. In order to answer personal response questions, students have to draw on both their literal understanding of the text and their own knowledge and opinions.

## Dictionary Use

Dictionary use is not permitted on the Meitzav English tests. These tests test English language proficiency which includes knowledge of vocabulary expected of the tested age group. The use of a dictionary is not suitable for these tests, although it is an important tool to be used in the process of teaching and learning in the classroom.
