**The EAP National Curriculum, Tempus ECOSTAR and CEFR update.**

EAP programs in the Education Colleges are currently undergoing The Council for Higher Education's Quality Assessment Process. As long as the process has not been completed, Readability Standards should be maintained according to the [EAP National Curriculum 2010](#). (see chart below)

However, it is strongly recommended that department heads explore the possibilities and potential offered by the [Tempus –Ecostar Project](#), sign up for its professional development workshops, and examine its adaptability to their individual institutions. The [CEFR Text Profiler tool](#) may be consulted in addition to the resources listed below the chart.

רמה	Level	Length	Vocabulary Targets K=1000 words	AWL% in text	Readability-Flesch
