Establishment of the Israeli National Qualifications Framework (NQF) as a mechanism to fostering the development of Israeli Human Capital
IL 15 ENI SO 01 17(IL/14)

Intervention Logic

Objective

- Development of Israeli Human capital by establishing the Israeli NQF:
- Supporting the establishment of a functioning Israeli NQF which is inspired to the EQF meta-frame and customised to Israeli context and society.

Establishment of the Israeli National Qualifications Framework (NQF) as a mechanism to fostering the development of Israeli Human Capital
IL 15 ENI SO 01 17(IL/14)

Intervention Logic

Mandatory Results

- A recommendation paper regarding the suggested regulating framework for the adoption of the National Qualifications Framework and its implementation.
- The recommendation paper includes the elements necessary to the promotion of lifelong learning and the importance of professional qualifications.
- The recommendation paper presented to the relevant Israeli authorities.

To achieve these aims we organised webinars with 61 experts from EU member states that we wish to thank.

- The experts who took part in the project come from the EU member states of Italy, Ireland, Estonia, Germany, Austria, France, Finland and the Netherlands.
- We involved the European institutions of the ETF- European Training Foundation, Cedefop- European Centre for the Development of Vocational Training, and ESDC-the European Security and Defence College
