---	--	---

Good afternoon and welcome to the Safari Park. My name is Bobby. I am a guide here at the park. I will show you the animals that live here and tell you many interesting things about them. We are going to drive through the park and see many animals on the way. If you have questions, I will be happy to answer them at the end of our tour.

Let's go..

Please look to the left. You will see our elephants. A baby elephant was just born yesterday and he is already standing beside his mother. We now have twenty elephants living here on the Safari. If you listen carefully, you can hear the screaming sound that they are making. They make these loud sounds when they are fighting and angry.

Let's go on..

Now we will see the monkeys. Don't be afraid if they climb on our bus and look at you through the windows. Here, they are free to run around, climb and jump from tree to tree. They love when our tour buses come by. Maybe they think that we have some bananas for them. But visitors must not feed them or any of the animals here because they may get sick! They have their own special food.

And now we are driving to the part that I think is most exciting! The lions! Of course, we do not keep them with the rest of the animals. That would be too dangerous! The lions have their own space which is very big. Look! Over there you can see a group of lions lying under that tree. They just finished eating and are now resting. They spend twenty hours each day resting and sleeping. If you want to see them more active, you will have to come very early in the morning! This brings us to the end of our tour. Are there any questions?
