

## National Online Broadcast Lessons for Elementary School

Dear colleagues,

We have made these materials available to assist you in your online teaching. Please note that the PowerPoint presentations are the intellectual property of the teacher who created them. If you would like to use them as is or adapt them, please remember to credit your colleague who created the presentation.

Please note that these lessons should be reviewed and teachers should choose the sections they wish to screen to their students as introductions or short teaching sections of an online lesson. The lessons are filmed in "one take" - no edits are made to the original, live footage.

Here is a video which will help you use the lessons on this page: [Using Videos - English, any Level](#), (Leah Doryoseph & Vivi Zahav)

This video will explain further about the [recorded lessons](#).

Thanks for your cooperation,

Dr. Tziona Levi
