The fish was afraid and said to the bird, "Bird, please don't eat me. I want to live." The bird said nothing. The fish said, "I know your father and mother. They sing beautifully!" Again, the bird said nothing. The fish tried again. It said, "I know your brothers and sisters too. They also sing beautifully!" "Mmmm," said the bird, but it did not open its mouth. Then the fish said, "Everyone in your family can sing, but I know that you are the best singer. Please sing for me." "Aha!" said the bird proudly. المهمة رقم 5 TASK

Read the text about koalas.

Answer the questions in English according to the text.

اقرأ النص عن الكوالا.

أجب باللغة الإنجليزية عن الأسئلة بحسب النص.

Introduction

Koalas are often called 'koala bears' but this is not correct. They do not belong to the bear family. Koalas, like kangaroos, belong to the *marsupial* family.

Marsupials are animals that have a pouch, or pocket, where they keep their babies. The baby koalas are called 'joeys'. They live in their mother's pouch for six or seven months. When the joeys are older, the mothers sometimes carry them on their backs.

Description

What koalas look like

Koalas have gray and white fur, round ears and a black nose. Adult koalas weigh about 12 kilograms and are about one meter tall.

Habitat

Where koalas live

Koalas come from Australia. The gray areas on the map show where most koalas live.

Diet

What they eat

Koalas only eat the leaves of eucalyptus trees*. These leaves are full of water. Therefore, when koalas eat the leaves, they get most of the water that they need. In fact, in an Aboriginal** language, 'koala' means 'no drink'.

Behavior

What koalas do

Koalas sleep for about 18-20 hours each day. They are awake mainly at night, when they spend most of their time eating. Koalas do not live in groups. They prefer to live alone.

Population

How many koalas live in Australia

In the past, millions of koalas lived in Australia. However, for many years koalas were killed for their fur. Today there are only a few thousand left. Therefore, koalas are a protected species***. That means they must not be hurt or killed.

*eucalyptus trees - أشجار الكينا (اليوكالبتوس)

**Aboriginal - نسبة إلى قبائل سكان أستراليا الأصليين

***protected species - حيوان ينتمي إلى جنس محمي (يُمنع صيده)

23. A marsupial is ____.

- a ☐ an area in Australia
- b ☐ an animal with a pouch
- c ☐ a kind of Australian tree
- d ☐ a family of bears

24. Complete the facts about koalas.
